### Acceptance of Confidentiality Practices

Participation in the BEAD Challenge Process may include submission of evidence documents containing material that requires confidential handling consistent with Wisconsin Administrative Code § [PSC 2.12](#). To adjudicate challenges, it is necessary for the Commission to release unredacted versions of confidential material submitted by a challenger to the challenged entity (or vice versa) so that it may review the evidence and provide a response to the challenge. For example, a customer's claim a provider does not offer service at a location would be shared with that internet service provider to provide a response to the assertion.

**By signing below, submitter releases its claim of confidentiality for submitted evidence in the narrow instance where an evidence document is being provided to the entity that is the subject of the challenge or rebuttal. The signatory thus allows the Commission to share their confidentially submitted information with the entity that is the subject of its challenge or rebuttal.**
